Claims 6, 7 and 11-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are directed to methods of producing a pharmaceutical preparation, however, the steps of said production have not been set forth.

Also, there is no antecedent basis in claim 5 for the terminology "hardly water soluble antiphlogistic antibiotic salts" as set forth in claim 7. Note that claim 5 is directed to a solid mixture of at least one easily water soluble salt of a specific antibiotic and at least one easily water soluble salt of a specific antiphlogistic. Claim 14 is also indefinite in that it depends from claim 7.

Applicant's arguments filed October 20, 2006 have been fully considered but they are not persuasive.

Applicant has failed to point out what is encompassed by the method claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
